Take a look at this patent for example, W02020/060606, the applicant of which is none other than the Microsoft company created among others by Bill Gates. This document was made on the 26th March 2020. This patent covers a very large number of countries. In fact almost the entire planet. Let's take a closer look at this diagram: Cryptocurrency System Using Body Activity Data. What is that?

The little guy here is you, is me, the first to come.

The Sensor corresponds to the nanoparticles that will be added to the vaccine vial. It's a bit like a microchip implanted under your cat or dog's skin. The difference is you're going to find thousands, millions of them in just one bags and dose. Once injected together with the vaccine you will keep them until death and even after. Impossible to get rid of it, you're marked for life.

What is the User Device? It's your cell phone. It will be able to communicate with the nanoparticles that will circulate in your veins. Of course, your mobile phone is connected to the Internet with...with what? With the new 5G networks of course. From then on you can be spotted and located by the authorities at any time of the day or night.

BILL GATES'S PATENT : ΕΙΣΑΓΩΓΗ ΑΙΣΘΗΤΗΡΩΝ ΜΕ ΕΜΒΟΛΙΑΣΜΟ

→ ΑΜΕΣΟΣ ΕΝΤΟΠΙΣΜΟΣ ΜΕΣΩ ΦΟΡΗΤΟΥ ΤΗΛΕΦΩΝΟΥ ΚΑΙ ΔΙΚΤΥΟΥ 5G

Now let's simplify our diagram.

The vaccine and the nanoparticles are mixed in a syringe. The vaccine and the nanoparticles are therefore injected simultaneously into your body. From that moment on, your mobile phone will locate you immediately. And by the magic of 5G networks your location is no longer a secret to the authorities.

(Τὸ μεγαλύτερο Πραξικόπημα ὅλων τῶν Ἐποχῶν)

At the time of writing (June 2020), the pandemic continues to worsen globally. Many of us are pondering when things will return to normal. The short response is: never. Nothing will ever return to the “broken” sense of normalcy that prevailed prior to the crisis because the coronavirus pandemic marks a fundamental inflection point in our global trajectory. Some analysts call it a major bifurcation, others refer to a deep crisis of “biblical” proportions, but the essence remains the same: the world as we knew it in the early months of 2020 is no more, dissolved in the context of the pandemic. Radical changes of such consequence are coming that some pundits have referred to a “before coronavirus” (BC) and “after coronavirus” (AC) era. We will continue to be surprised by both the rapidity

look for precedents, with questions such as: Is the pandemic like the Spanish flu of 1918 (estimated to have killed more than 50 million people worldwide in three successive waves)? Could it look like the Great Depression that started in 1929? Is there any resemblance with the psychological shock inflicted by 9/11? Are there similarities with what happened with SARS in 2003 and H1N1 in 2009 (albeit on a different scale)? Could it be like the great financial crisis of 2008, but much bigger? The correct, albeit unwelcome, answer to all of these is: no! None fits the reach and pattern of the human suffering and economic destruction caused by the current pandemic. The economic fallout in particular bears no resemblance to any crisis in modern history. As pointed out by many heads of state and government in the midst of the pandemic, we are at war, but with an enemy that is invisible, and of course metaphorically: “If what we

There is no denying that the COVID-19 virus has more often than not been a personal catastrophe for the millions infected by it, and for their families and communities. However, at a global level, if viewed in terms of the percentage of the global population effected, the corona crisis is (so far) one of the least deadly pandemics the world has experience over the last 2000 years. In all likelihood, unless the pandemic evolves in an unforeseen way, the consequences of COVID-19 in terms of health and mortality will be mild compared to previous pandemics. At the end of June 2020 (at a time when the outbreak is still raging in Latin America, South Asia and much of the US), COVID-19 has killed less than 0.006% of the world population. To put this low figure into context in terms of lethality, the Spanish flu killed 2.7% of the world's population and HIV/AIDS 0.6% (from 1981 to today).

deadly. Even the most pandemic-prepared nations were quickly overwhelmed when the virus streaked around the world, infecting nearly 20 percent of the global population and killing 8 million in just seven months, the majority of them healthy young adults. The pandemic also had a deadly effect on economies: international mobility of both people and goods screeched to a halt, debilitating industries like tourism and breaking global supply chains. Even locally, normally bustling shops and office buildings sat empty for months, devoid of both employees and customers.

took extreme measures to protect its citizens
from risk and exposure. During the pandemic,
national leaders around the world flexed their
authority and imposed airtight rules and
restrictions, from the mandatory wearing of face
masks to body-temperature checks at the entries
to communal spaces like train stations and
supermarkets. Even after the pandemic faded,

this more authoritarian control and oversight
of citizens and their activities stuck and even
intensified. In order to protect themselves from
the spread of increasingly global problems – from
pandemics and transnational terrorism to
environmental crises and rising poverty – leaders
around the world took a firmer grip on power.

About the Event 201 exercise

Event 201 was a 3.5-hour pandemic tabletop exercise that simulated a series of dramatic, scenario-based facilitated discussions, confronting difficult, true-to-life dilemmas associated with response to a hypothetical, but scientifically plausible, pandemic. 15 global business, government, and public health leaders were players in the simulation exercise that highlighted unresolved real-world policy and economic issues that could be solved with sufficient political will, financial investment, and attention now and in the future.

CAPS: THE PATHOGEN AND CLINICAL SYNDROME

Prepared by Amesh Adalja and Lane Warmbrod

The **FICTIONAL** Coronavirus Acute Pulmonary Syndrome (CAPS) is an acute respiratory infection that can progress to pneumonia and acute respiratory distress syndrome. It is caused by a swine-origin coronavirus (CAPS virus).

The CAPS virus is more transmissible in mild cases than SARS-CoV, and spread by mildly symptomatic individuals is possible. Transmission is via the respiratory route, mostly by respiratory droplets, with some proportion being airborne during aerosol-generating medical procedures.

Υπολόγιζαν 7% φονικότητα τοῦ ἰοῦ ἐπὶ τῶν κρουσμάτων...

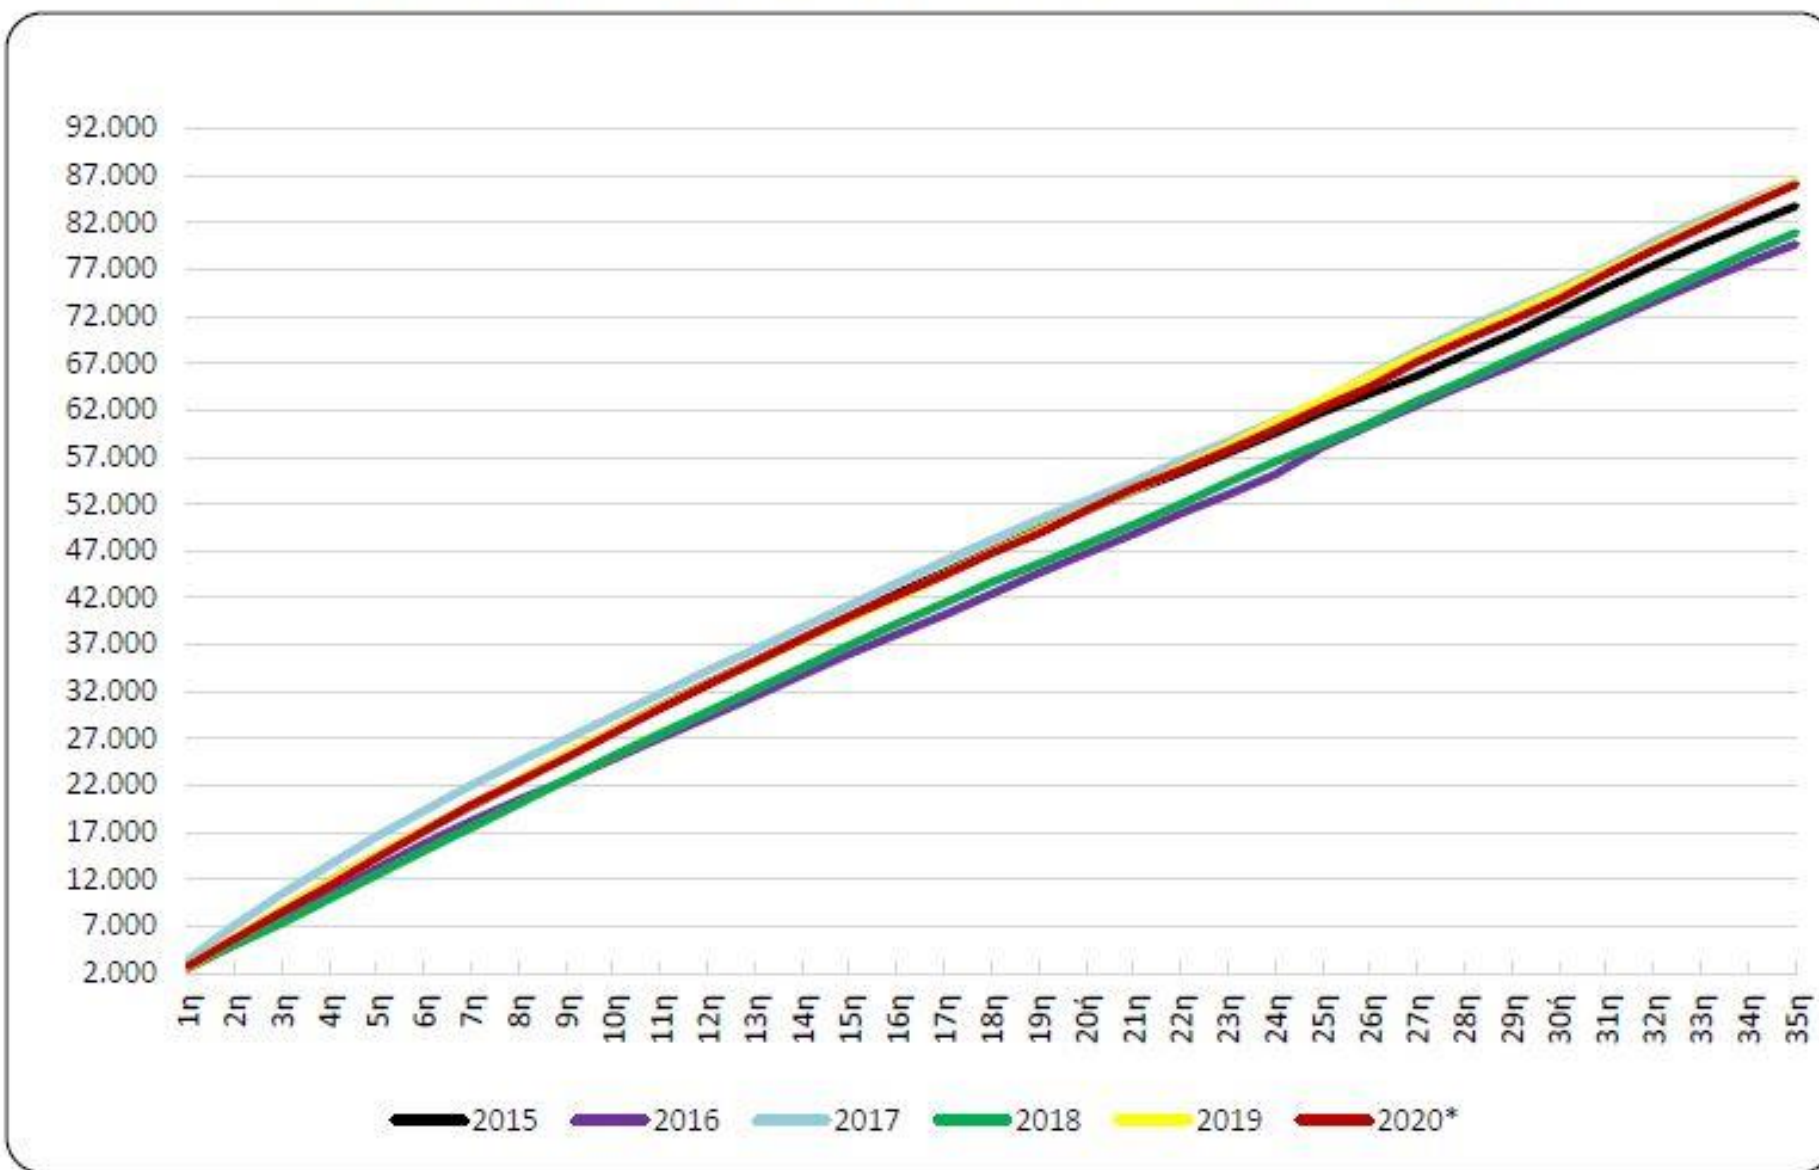

- Approximately 50% of CAPS cases require hospitalization, many of them in an intensive care unit (ICU).
- The CAPS fatality rate in hospitalized patients is about 14%.
- The overall case fatality rate (CFR) is 7%.
- The average R_0 is 1.74.
- The incubation period ranges from 5 to 7 days.

Ἀπὸ 7 ἡμέρες ἀπομόνωση τῶν κρουσμάτων μᾶς πῆγαν στὶς 14 ...

There is no licensed vaccine for any coronavirus, although some are in development for SARS and MERS. There is no antiviral drug with an indication for coronavirus treatment, although there are several drugs, including anti-HIV drugs, that might be effective. In this scenario, there is one **FICTIONAL** HIV antiviral—extranavir—that may be effective for treatment or prophylaxis of CAPS.

Covid-19 is an artificial coronavirus made in France by the Institut Pasteur from natural Sars-CoV, coronavirus. Covid-19 is the result of several genetic manipulations of a strain of coronavirus Sars-CoV associated with severe acute respiratory syndrome SRAS resulting from a sample, collected from bronchoalveolar washings of Sars infected patients by scientists of the Institut Pasteur, before 2003, at the French hospital in Hanoi (Vietnam).

First step: Sars-CoV1 was produced by first patent filed in 2003, European patents and US patents from Sars-CoV collected in Hanoi before 2003.

Second step: Sars-CoV2 was a continuation of the first US patent protected by the second US patent filed in 2011 from Sars-CoV1.

Third step: Covid-19 was produced from Sars-CoV2 by inserting into its genome four sequences of HIV1, AIDS virus, which is an RNA virus. The father of Covid-19 is Doctor Frédéric Tangy, Director of Vaccine Innovation at the Institut Pasteur.

Actually, Covid-19 was made in France by French scientists at the Institut Pasteur from natural Sars-CoV, coronavirus, then transferred to Wuhan

**NOVEL STRAIN OF SARS-ASSOCIATED
CORONAVIRUS AND APPLICATIONS THEREOF**

[0001] The present invention relates to a novel strain of severe acute respiratory syndrome (SARS)-associated coronavirus derived from a sample recorded under No. 031589 and collected in Hanoi (Vietnam), to nucleic acid molecules derived from its genome, to the proteins and peptides encoded by said nucleic acid molecules and to their applications, in particular as diagnostic reagents and/or as vaccine.

Claims 2

[0020] The subject of the present invention is therefore an isolated or purified strain of severe acute respiratory syndrome-associated human coronavirus, characterized in that its genome has, in the form of complementary DNA, a serine codon at position 23220-23222 of the gene for the S protein or a glycine codon at position 25298-25300 of the gene for ORF3, and an alanine codon at position 7918-7920 of ORF1a or a serine codon at position 26857-26859 of the gene for the M protein, said positions being indicated in terms of reference to the Genbank sequence AY274119.3.

[0021] According to an advantageous embodiment of said strain, the DNA equivalent of its genome has a sequence corresponding to the sequence SEQ ID No: 1; this coronavirus strain is derived from the sample collected from the bronchoalveolar washings from a patient suffering from SARS, recorded under the No. 031589 and collected at the

PRELUDE

To fully **control** and **enslave** the **world's population**, by monitoring and weakening it, the leaders of the New World Order had **nothing better** at their disposal **than a Vaccine**. With this diabolical intention, they had many genetic manipulations carried out, on the genome of the Sars-CoV coronavirus responsible for the SARS epidemic that occurred between 2002 and 2003 in Asia.

The **Covid-19** coronavirus, **different from Sars-CoV2**, is an **artificial virus** that is the result of **many genetic manipulations** carried out on the **natural Sars-CoV** coronavirus, which successively led to 3 artificial coronaviruses **Sars-CoV1**, **Sars-CoV2**, and **Covid-19**, described in 3 patents filed by the Institut Pasteur, which provide their intellectual protections

In its genome, **Covid-19 carries**, among other calamities, **4 RNA fragments from HIV**, the AIDS virus, which corresponds to short segments of amino acids found in gp120 and Gag of HIV-1, which will place all vaccinated people in immunodeficiency, and **DNA fragments from the malaria germ**.

Men around the world must open their eyes and understand that **the natural Sars-CoV coronavirus poses no danger to humanity**, unlike artificial **Covid-19**. **Covid-19 helped spark a false pandemic**, and **spread fear** across the world, to **make us accept the Covid-19 vaccines**.

Numerical tracing **nanoparticles** have been added to the vials of the final **Covid-19 vaccine (ChAdOx1 nCoV-19)**.

By seeking to vaccinate the entire world population, the promoters of the Covid-19 vaccines pursue **two objectives**:

- **Control the entire world population** after having vaccinated it, **thanks to the deployment of 5G**, because these vaccines contain **nanoparticles** which will allow the **identification** and **permanent control** of vaccinated individuals;
- **Limit the world's population**.

Pierre Charneau is a recognized specialist in HIV, the AIDS virus, lentiviral gene transfer vectors and their medical applications. He holds a research doctorate in molecular and cellular biology.

In 1995, he did his doctoral thesis in Luc Montagnier's viral oncology laboratory at the Institut Pasteur on: "Reverse transcription, nuclear importation and independent integration of the mitosis of the HIV genome". Dr. Pierre Charneau, specialist in the integration of HIV into the DNA of the human genome, was responsible for inserting the RNA sequences of the AIDS virus into the Sars-CoV2 genome, between 2011 and 2015; which gave birth to the artificial coronavirus nCoV-19, responsible for the COVID-19 epidemic, triggered by the Institut Pasteur in 2019. In the ChAdOx1 nCoV-19 vaccine, the nCoV-19 coronavirus is carried by the vector adenovirus ChAdOx1

Transformation of Sars-CoV-2 into Covid-19

The **Sars-CoV-2** coronavirus, described in **US Patent 8,343,718 B2**, is an RNA virus into the genome of which **DNA sequences**, **but not RNA sequences**, have been inserted.

Recently, and simultaneously, **Professor Luc Montagnier** and a **group of Indian scientists** have **analyzed** and **decrypted** the **complete genome of the Covid-19** coronavirus responsible for the pandemic.

They found in the Covid-19 genome:

- **sequences of HIV**, the **AIDS virus** (4 fragments of HIV1 RNA which correspond to short segments of amino acids found in the gp120 and the Gag of HIV1);
- and **DNA sequences** from the **malaria** germ.

These results have been published and confirmed by **Professor Peter Chumakov**, a well-known Russian microbiologist, and Japanese **Professor Tasuku Honjo**, 2018 Nobel Prize laureate in medicine. **Since there was no RNA sequence in Sars-CoV-2** described in **US Patent 8,343,718 B2**, this analysis proves that **Covid-19 is the result of genetic manipulation of Sars-CoV-2 by French scientists from the Institut Pasteur.**

Elaboration of Covid-19 vaccine according to Dr Frédéric Tangy

The complete and detailed «recipe» for one Covid 19 vaccine, was given to us by Dr Frédéric Tangy, head of Vaccine Innovation at the Institut Pasteur in Paris, in an interview with the newspaper Paris-Match, in the 9-15 edition April 2020 (see Document 4).

Thus, as explained perfectly to us by Dr. Frédéric Tangy - who is decidedly very talkative - the spike glycoprotein of Covid-19, which contains the 4 RNA sequences of HIV - which is clear from the group's analysis of Indian researchers, but was hidden (like malaria genome) by researchers at the Institut Pasteur - is intended, he said, to induce immunity in the vaccine, serving as an antigen after insertion into the genome of the attenuated measles virus (who remember it is an RNA). But, obviously, it does not tell us that the viral nucleic acids inserted into the genome of the attenuated measles virus are those of HIV. And, since it is not in the Sars-CoV-2 coronavirus genome, one wonders where it came from.

Live Attenuated Measles Vaccine as a Potential Multivalent Pediatric Vaccination Vector

ABSTRACT

Live attenuated RNA viruses make highly efficient vaccines. Among them is the live attenuated measles virus (MV) vaccine that has been given to a very large number of children and has been shown to be highly efficacious and safe. MV vaccine induces a life-long immunity after a single injection or two low-dose injections. It is easily produced on a large scale in most countries and can be distributed at low cost. Reversion to pathogenicity has never been observed with this vaccine. For all of these characteristics, developing of MV vaccine vector as a multivalent vaccine to immunize children against both measles and other infectious agents such as human immunodeficiency virus (HIV), flaviviruses, or malaria might be very promising for worldwide use. As MV vaccine is inexpensive to produce, the generation of recombinant vaccines may remain affordable and attractive for the developing world. In this article, we describe the development of MV vector and present some recent data showing the capacity of recombinant MV vaccine to express various proteins from HIV and West Nile virus. In addition, the ability of recombinant MV to induce specific immune responses against these different pathogens are presented and discussed.

Evidence of the manufacture of the artificial virus, responsible for the COVID-19 disease, by the Institut Pasteur, before 2015

In early October 2020, a group of German doctors discovered the existence of a patent for the invention of COVID-19 testing, US patent US 2015/622,407 P, filed by Richard Rothschild, with a date of priority as of October 13, 2015.

ABSTRACT

A method is provided for acquiring and transmitting biometric data (e.g., vital signs) of a user, where the data is analyzed to determine whether the user is suffering from a viral infection, such as COVID – 19.

COVID 19 tests are therefore used to detect COVID-19 viral infection in patients

(57) ABSTRACT

A method is provided for acquiring and transmitting biometric data (e.g., vital signs) of a user, where the data is analyzed to determine whether the user is suffering from a viral infection, such as COVID-19. The method includes using a pulse oximeter to acquire at least pulse and blood oxygen saturation percentage, which is transmitted wirelessly to a smartphone. To ensure that the data is accurate, an accelerometer within the smartphone is used to measure movement of the smartphone and/or the user. Once accurate data is acquired, it is uploaded to the cloud (or host), where the data is used (alone or together with other vital signs) to determine whether the user is suffering from (or likely to suffer from) a viral infection, such as COVID-19. Depending on the specific requirements, the data, changes thereto, and/or the determination can be used to alert medical staff and take corresponding actions.

What the COVID-19 Tests Patent and the 2017 COVID-19 Tests Sales tell Us

The Institut Pasteur, WHO, all Western health agencies, governments of Western countries, and pharmaceutical companies, had therefore programmed the COVID 19 epidemic, before 2015, when the COVID-19 test patent was filed.

Moreover, to add to the horror and the lies, we come to learn that the tests had been sold in 2017 to a large number of countries for sums of over \$ 10 billion.

The image shows a screenshot of the WITS (World Integrated Trade Solution) website. The page title is "COVID-19 Diagnostic Test instruments and apparatus (902780) exports by country in 2017". Below the title, there is a paragraph of "Additional Product Information" and a "Category" label. A text block states that the top exporters in 2017 are the European Union, United States, Germany, Japan, and China, with their respective trade values. Below this, there is a table titled "COVID-19 Diagnostic Test instruments and apparatus imports by country in 2017" (though the content is about exports). The table has columns for Reporter, TradeFlow, ProductCode, Product Description, Year, Partner, Trade Value (1000USD), Quantity, and Quantity Unit. The data rows are highlighted in yellow.

The virus responsible for the COVID-19 disease is not a Chinese virus that escaped from the P4 laboratory in Wuhan

The incredible discovery of the **COVID-19 test patent**, provides us with an answer on the **non-involvement of China in the origin of the epidemic**, which we have tried to attribute to an accidental leak of the Covid-19 virus from the Wuhan P4 laboratory, without having any proof.

In February 2017, a delegation from the French government and the Institut Pasteur traveled to Wuhan to inaugurate the new P4 laboratory in Wuhan as part of a collaboration between France and China. On the following photo we recognize **Elizabeth Guigou**, **Marisol Touraine**, then Minister of Health, **Yves Lévy**, husband of Agnès Buzyn, who was director of INSERM, at that time, **Bernard Cazeneuve**, Minister of the Interior, and a **director of the Institut Pasteur**.

This visit took place on February 23, 2017, as shown in the photo.

There was a lot of hype in the press to get everyone to believe in a real scientific collaboration between Chinese scientists at the P4 laboratory in Wuhan and the Institut Pasteur. In fact this collaboration never took place.

In February 2017, these people knew that the virus responsible for the COVID-19 disease was already manufactured by the Institut Pasteur, before 2015, and this visit had only one goal: to blame the Chinese on the origin of this virus and the false pandemic.

Nanoparticles and the permanent control of vaccinated people

The **nanoparticles** described in the Microsoft patent (US Patent WO 2020/060606 A1) are **sensors** which **must be diffused in the body of the vaccinated person**, in order to be able to **detect it**

Introduced into the vaccine vial, **they are injected into the body, together with the vaccine**, at the time of vaccination

Once they are in the body, they cannot be gotten rid of, unlike a subcutaneous digital tracing microchip. From this moment, **the vaccinated people will be detectable by any mobile phone located nearby**.

Mobile phones are connected to the internet by 5G

5G relays allow this communication through satellites 5G.

The vaccinated people will have lost definitely all freedom in their existence

Manufacture of the ChAdOx1 nCoV-19 vaccine from 2018

Astra Zenecca manufactured the ChAdOx1 nCoV-19 vaccine from September 2018, which was the filing date of Microsoft's nanoparticles patent, US Patent WO 2020/060606 A1

Indeed, the protection of a patent occurs as soon as the patent is filed.

On the diagram on the next page, produced before 2020, the Astra Zenecca laboratory explains how it manufactures its ChAdOx1 nCoV-19 vaccine.

We are struck by the fact that the vaccine which results from the insertion of the Sars-CoV-2 genome into the genome of the vector virus ChAdOx1 **is called ChAdOx1 nCoV-19, whereas it should be called ChAdOx1 Sars-CoV -2.**

This scheme is deliberately misleading, because the Institut Pasteur wanted to hide the insertion of the AIDS virus in Sars-CoV-2, which they carried out between 2011 and 2015. **Indeed, the insertion of 4 HIV1 RNA sequences into the Sars-CoV2 genome leads to an artificial coronavirus Sars nCoV-19 , the number 19 indicating that the false pandemic was to be triggered with this artificial virus in 2019.**

Τò σχεδιάγραμμα τῆς εἰκόνας εἶναι σκοπίμως παραπλανητικό, ἐπειδὴ τὸ Ἴνστιτοῦτο Παστέρ θέλει νὰ ἀποκρύψει τὴν εἰσαγωγή τοῦ AIDS μέσα στὸν ἰὸ Sars-CoV2, πρᾶγμα τὸ ὁποῖο **ἔχει ἐπιτευχθεῖ μεταξύ τῶν ἐτῶν 2011 καὶ 2015.**

Ἀληθῶς, ἡ εἰσαγωγή 4 θραυσμάτων RNA τοῦ HIV στὸ γονιδίωμα τοῦ Sars-CoV2 ὁδηγεῖ στὴν κατασκευὴ τοῦ κοροναϊοῦ Sars nCoV-19, ὅπου ὁ ἀριθμὸς 19 δεικνύει ἀκριβῶς τὸ ἔτος ἐκκινήσεως τῆς ψευτο-πανδημίας !

Why Agnès BUZYN and Olivier VERAN
have banned the prescription
of Hydroxychloroquine
to Covid-19 infected people ?

Agnès BUZYN and Yves LEVY know that DNA fragments from the germ of Malaria are inserted into the genome of Covid-19
(see [DOCUMENT 3](#))

Under these conditions, administration of hydroxychloroquine
destroys the genome of Covid-19 and stops the infection.

Conclusion

Dear brothers and dear friends, you should know that there has never been a good vaccine, as you can read in the article entitled "*Vaccine: An Extremely Dangerous Poison*", which you can find on the website www.mcreveil.org, in the Health Section. But, unlike other vaccines that were intended for the genocide of only a few groups of people, this vaccine against Covid-19 is unique in that it aims to destroy all of humanity. *Save yourself from this perverse generation.* Times are over. We are living what the Bible calls the End Times.

Τώρα που αποδείχθηκε ότι τὸ **ΕΜΒΟΛΙΟ Covid-19** εἶναι ἓνα δηλητήριο μὲ ἀνεπίστρεπτα ἀποτελέσματα, τρέξτε **ΜΑΚΡΥΑ** ἀπὸ αὐτό! Μὴν ἐμβολιασθῆτε !...

Now that the vaccine against Covid-19 has been shown to be a poison whose pernicious effects will be irreversible, all you have to do is run away from it. Do not accept the Covid-19 vaccine for the world. This satanic poison will not only destroy your body, it will also destroy your soul. Know that
